ABSTRACT (Continue on reverse side if necessary and identify by block number) The Information Mission Area Goal of the Assistant Chief of Staff for Information Management (ACSIM) of the Army Staff is to provide the required information systems processes and decision support systems to support the Army in achieving its mission. The Pentagon Library is providing the following list of materials on the topics of information management and its functional areas: records management, telecommunications, automation, printing and publishing, audiovisuals, and libraries. Materials listed are dated from		

Block 20, continued

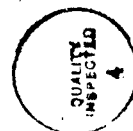

January 1984 through June 1986 and include books, periodicals, legal and congressional materials, and technical reports.

INTRODUCTION

The Pentagon Library serves Department of Defense personnel stationed in the Pentagon and DOD employees assigned to the National Capital Region who do not have library service at their duty station. Librarians are available to assist researchers from 0900-1600 hours Monday through Friday, except federal holidays. The library contains an extensive and current collection of books, periodicals, legal and congressional materials, military publications, and technical reports of Army and DOD studies.

The Information Mission Area Goal of the Assistant Chief of Staff for Information Management (ACSIM) of the Army Staff is to provide the required information systems processes and decision support systems to support the Army in achieving its mission. TECHNICAL REPORTS

The following reports are part of the Defense Technical Information Center's DROLS data base. Although the reports are not necessarily part of the Pentagon Library collection, they may be ordered from DTIC by libraries that have DTIC user accounts. (The Pentagon Library places orders for its patrons.) Other agencies or individuals may order these reports from the National Technical Information Service (NTIS) using the "AD" number as an order number.
